Story Id	01
Sprint	01
Priority	Must have
Status	Ready for sprint

User story	<i>As a</i>	buyer
	<i>I want to</i>	Return a product
	<i>So that</i>	I can initiate refund process
Acceptance criteria	<i>Given</i>	I have an eligible, delivered order
	<i>When</i>	I select "Return" and confirm the return request
	<i>Then</i>	A return request is created and the order status updates to "Return Initiated"
Edge case-Return window	<i>Given</i>	The order is outside the eligible return window
	<i>When</i>	I try to select "Return"
	<i>Then</i>	The system displays "Return period expired" and blocks the request

User story	<i>As a</i>	buyer
	<i>I want to</i>	Request refund
	<i>So that</i>	I can get my money back
Acceptance criteria	<i>Given</i>	A return has been initiated
	<i>When</i>	I Tap request refund
	<i>Then</i>	Refund request is created and return product is linked
Edge case-Duplicate refund	<i>Given</i>	A refund has already been requested for this order
	<i>When</i>	I try to request a refund again
	<i>Then</i>	The system shows "Refund already requested" and prevents duplication

User story	<i>As a</i>	buyer
	<i>I want to</i>	Provide reason for refund
	<i>So that</i>	My refund process start
Acceptance criteria	<i>Given</i>	A return has been initiated
	<i>When</i>	I submit my reason for the refund
	<i>Then</i>	The product refund is initiated
Edge case- provide reason for refund	<i>Given</i>	I have not selected a reason
	<i>When</i>	I tap "Submit"
	<i>Then</i>	The system prompts me to select a reason before continuing

User story	<i>As a</i>	buyer
	<i>I want to</i>	Get notified about the refund accepted/rejected
	<i>So that</i>	I confirm refund process is accepted
Acceptance criteria	<i>Given</i>	Refund reason is validated by customer care
	<i>When</i>	The decision is made
	<i>Then</i>	I notified about refund accepted/rejected
Edge case- Get notified about refund Accepted/rejected	<i>Given</i>	A decision (accepted/rejected) has been made
	<i>When</i>	The system attempts to send the notification and it fails
	<i>Then</i>	The system retries sending or logs the failure for follow-up

User story	<i>As a</i>	buyer
	<i>I want to</i>	Hand over a product
	<i>So that</i>	refund for the product is initiated
Acceptance criteria	<i>Given</i>	The product refund confirmed
	<i>When</i>	The product is handed over to delivery person
	<i>Then</i>	The delivery person confirms pickup and the refund process moves to completion
Edge case- Delivery person doesn't arrive	<i>Given</i>	A pickup has been scheduled
	<i>When</i>	The scheduled pickup time passes without arrival
	<i>Then</i>	The system flags the return as delayed and notifies the customer
